We have the pleasure of informing about an International Certificate Program planned for May-July 2021 for Indian school students. The attached program will be conducted online using Google Meet or a similar online platform and there are a few offline events planned in India later this year.

The idea behind curating this program is to bring the best practices of Nordic Baltic region for the Indian students, who are presently confined to their homes due to the COVID-19 pandemic. There are several activities planned during this time, which are detailed in the attached program.

Our partners in this initiative are Royal Danish Embassy, Danish Water Forum, Nordic Consult Group, and Wise Foundation, who bring a lot of experience and information on dealing with student learning.

There are a lot of scholarships and prizes in-built into the program. Additionally, there would also be opportunity for senior students to avail of internships with some of the international partners.
